Re: Project Closeout
Subj: Williams Science Hall
Ref: Optimized Systems No. 20-190.03

Dear Erin:

This is to let you know that work for the above referenced project has been completed. In addition to handling the remaining install, optimized programming was added to those devices as OS worked on them. Any unresolved issues and/or recommendations relevant to the project are provided below for your reference.

Unresolved Issues

The following issues were encountered during the course of the project and remain unresolved.

- Radiant fin tube; now being handled by UNMC Energy Group.

Recommendations

Optimized Systems recommends the following course(s) of action to resolve the above unresolved issue(s) or other deficiencies observed during the course of the project.

- None

It has been our pleasure working with UNMC on this project. We appreciate your confidence in Optimized Systems and look forward to working with you again soon. If you wish to discuss any aspect of this project or our invoice(s), please do not hesitate to contact me.

Respectfully submitted,

A handwritten signature in blue ink that reads "Tyler R. Mueller".
